Kenneth German, Director

Electronic Evidence Seizure for First Responders

DATE and TIME: Wednesday, September 15, 2010—8:30 a.m. until 12:30 p.m.

LOCATION: Western Illinois Police Training Unit, 1801 Windish Drive, Galesburg

INSTRUCTOR: John Briscoe, Sergeant,

About the Course:

This four-hour program is for the First Responder who arrives at a crime scene and is tasked with seizing and securing electronic evidence. The law enforcement response to electronic evidence seizure requires that officers, investigators, probation officers, forensic examiners and managers must all play a role. This information serves as a guide for the first responder.

Officers Will Receive:

- Training Certificate
- United States Secret Service Training & Resource CD, "Forward Edge II".
- Resource & Literature Guide CD
- Electronic Evidence Seizure Kit: antistatic bag, antistatic bubble wrap., plastic cable ties, evidence bag, evidence tape, rubber bands, tab locking box, cable tag stickers, indelible felt tip marker, rubber gloves, stick-on and chain of custody labeling. (All materials recommended by the Nation Institute of Justice for packaging & transport.)

Areas Discussed in This Course :

- Describe applicable laws and basic legal reasoning related to computer evidence seizure.
- Describe the methods/procedures associated with future forensic analysis and online evidence submission (RCFL & Illinois Attorney General's Office).
- Topics include videotape and photography, hardware and tool kit, power considerations, packaging, labeling and evidence storage, digital evidence submitted for forensic analysis, inventory and chain of custody, consent to search, tampering and trespass, and examination procedures.
